

Introducing the World's Smallest Action Camera: PocketCam.

PocketCam is the world's smallest and most versatile action camera. You will be surprised how much it packs in just 22 grams.

VANCOUVER, BC, CANADA, December 24, 2018 /EINPresswire.com/ -- PocketCam, the world's smallest action camera. Don't carry around a chunky camera when you're on your adventures. You won't even realize PocketCam is on you with its 4.5 cm by 4.5 cm tiny casing and 22 grams feather-like weight. Capture life's memories with this small, but powerful, action camera.

PocketCam is the world's smallest and most versatile action camera. You will be surprised how much it packs in just 22 grams.

- 1080P / 60 fps
- 12 MP Sony CMOS Sensor
- IP68 Waterproof & Dustproof
- IOS and Android App
- Multipurpose Mounts
- Three Colors: Black, White, Red

PocketCam is designed to be as user-friendly as possible. You can easily take selfies with the click of the button, or use the integrated app for hands-free selfies! Featuring a super-wide angle f.20 aperture lense, PocketCam is able to take beautiful shots in both daylight and nighttime.

Featuring an IP68-certified waterproof casing, PocketCam guarantees protection in 10-meter deep water for a full hour. Whether you're exploring the deep seas or just accidentally dropped PocketCam into the pool, you can rest assured it's safe.

Moreover, PocketCam features 4 types of mounts, designed for everyday use. These mounts include the clip-on, suction cup, magnet, and adhesive mounts. With these mounts, there are countless ways to place the PocketCam.

PocketCam Includes 4 modes of media capture: photo, video, timelapse, and slo-mo. Using the app or the device itself, choose between 1080P / 60 fps or 720P / 120 fps for different occasions. Then, if needed, switch between modes on the app to convert your recorded video into other

Incredibly small: measuring 22 grams at 4.5 cm x 4.5 cm.

Featuring a powerful IMX258 Sony CMOS Sensor

modes for viewing.

Let PocketCam do the thinking for you. PocketCam can auto-detect environment cues and optimize pictures to match optimal colour, contrast, and saturation levels. This way, you are able to move between bright and dark environments without having to adjust camera settings.

PocketCam is the future of action cameras. Get it now for \$89 for a limited time on Indiegogo. Shipping starts April 2019.
