HONG KONG, HONG KONG , HONG KONG, December 25, 2018 /EINPresswire.com/ -- Shanzhai Limited — founded in Hong Kong with offices in New York and California, has launched [CoinBowl](#), a new crypto exchange exclusively designed for Hong Kong people with payment method in both cash on delivery (OTC) and bank transfer. On the launching, users are encouraged to participate in [referral program](#) to earn 100 HKD instantly and 0.2% lifetime reward.

CEO Claire Dang on the glaring gap in the market that inspired CoinBowl:

“We initiated CoinBowl with the purpose of introducing crypto to a market that is promising but has inadequate approach to legitimate, scam proof exchanges, many of which are geographically selective. Great numbers of residents in Asia seem to prefer paying by cash than paying by any other payment methods, making many current technological solutions in crypto field inappropriate for them. As a result, we combined cash payments and transactions in person. We start in Hong Kong first, next will be Jakarta, Manila, Singapore,...”

Here's what makes CoinBowl stand out.

Delivery Service

The most distinctive feature between CoinBowl and other exchanges is that CoinBowl provides delivery service on demand. Concerned about security, many traders want to make direct transactions in public instead of online ones. In response to this demand, CoinBowl will make an appointment at public places such as café, restaurants to deliver crypto and conduct direct payment. Especially, no additional fee.

At present, this service is only available in Hong Kong. More cities will be applied soon.
