

# The New Criminal Justice Reform Act and The Effect On Companies Doing Business In the Criminal Justice Industry

*The Short Term and Long Term Effect of The New Criminal Justice Reform Act On Society and On The Companies That Make A Living In this Arena*

MANALAPAN, NEW JERSEY, UNITED STATES, December 26, 2018 /EINPresswire.com/ -- The Criminal Justice Reform Act is the start of a new cycle in changes effecting USA incarceration.

The complexity of the short term and long term effects of this new event is extremely more involved and important than the lawmakers and John Q Public realize. Terms such as recidivism, Minimum Security Dorms vs Maximum Security Cells, low level drug violators, non violent and violent crimes are thrown around like fans at a football game yelling, "Defense" or "Throw the Long Ball". The point being, as much as most people have well intended views, most don't have a clue on the real issues facing their team and in this case our country.

"The factors and issues that need to be addressed are important to understand for everyone to win and reach the goals that our great nation seeks."
