The solution to immunise against loneliness, the virus of the modern age

“quotes: “#Loneliness is a masterpiece that beautifully demystifies the evolutionary role of loneliness, echoes a powerful existential message for mankind, and amplifies people’s faith in the power of love.”

This masterpiece that explores the fierce scientific, psychological and spiritual impact of adversity and the loneliness, rejection, and isolation that follows, was born of Tony’s extraordinary experience of child abuse, being bullied at school, atrocities of a civil war, homelessness, identity crisis, and starting a new life in London. Forced to go beyond the limits of known science (he had been made redundant from a senior technology job he loved for almost two decades) he was catapulted into a remarkable, body-mind-soul-searching and ultimately ground-breaking healing journey. Tony pioneered a unique healing technique and a methodology that guides us directly to the root cause of our loneliness from a longstanding difficulty – spiritual, mental, emotional physical, relationship, social, business or money – and then gives us the tools to resolve it.

Loneliness is a problem that has become an ironic epidemic in a world that is more interconnected than ever before. Empowering readers to redefine themselves and overcome the adversity, anxiety and stagnancy likely blighting their lives, Selimi truly breaks new ground in a volume endorsed by Jack Canfield, inspired the creation of Living My Illusion documentary series and appeared on Brian Tracey show for ABC, NBC, CBS, FOX and their affiliate channels. It’s also been a hit among critics, too, with one recently writing, “The worldview developed here transcends science, dogma, and belief, giving readers a new way to reconnect with their truth, hearts, and Divine within”.

At the most sophisticated nexus of body-mind-heart-spirit healing today, #Loneliness offers a simple, imaginative process that is a revolutionary way to heal our pain, connect all of the fragmented parts of our being, and prepare us for the next stages of human evolution where Artificial Intelligence becomes an integral part of our living. Selimi brings the latest findings of how to heal our being from the inevitable life adversities with a fast, effective, and easy to implement a technique that anyone from a CEO to a child can use.

Internationally renowned keynote speaker and healer Tony says, “I wrote this book to assist the lonely create life breakthroughs and learn new ways to grow, innovate, share and reconnect with their hearts infinite innate wisdom and love so they can be conscious creators of their inspired destiny.
