NEW DELHI, NEW DELHI, INDIA,  
December 31, 2018 /

EINPresswire.com/ -- Over the past few years, the market for wearables and fitness trackers has grown exponentially. With the Indian market being receptive to wearables from brands such as Fitbit and Apple, several other manufacturers have launched their own products in the Indian market at very competitive prices. Indian consumers are lapping up fitness trackers and implementing them in their day-to-day activities with an ultimate aim of becoming healthier.

[MevoFit](#), a fitness technology start-up has recently announced the launch of another amazing fitness band - [Echo Dash](#). Echo Dash is a comfortable

fitness tracker that has been engineered with exclusive features to register vital fitness parameters. The inbuilt optical sensor monitors the intuitive heart rate 24\*7 and makes it easy for the user to maximize workloads. This all-in-one activity tracker records essential fitness parameters such as steps taken, distance covered, and calories burned. This light weight activity tracker is comfortable to be worn even during sleep; when details such as sleep amount, quality and associated patterns are recorded for analysis and recommendations.

Echoronics Dash is a sleek smart watch which is available in three dazzling colors i.e. black, blue and red. The band has a 0.87 inch OLED single point touch screen that can be activated with slight gestures. The activity tracker is supported with a robust Lithium Polymer battery. The USB dongle on the fitness tracker can be used for charging when connected with the laptop or computer's USB port. The fitness band is equipped with features such as smart heart rate tracker, advanced sleep tracker, incoming call, SMS, social notifications etc. to stay connected all the time. The device can be connected to all popular phone brands such as Samsung, Apple, Xiaomi Mi, Huawei, Motorola, Lenovo, Oppo, Vivo, One Plus, LG, etc.

The Echo Dash fitness band is a lightweight activity tracker which is splash-proof, scratch tolerant

and skin friendly. It is easy to use as it operates on single point touch technology. There is effortless charging with USB direct. Switched on, it seamlessly syncs data between the band and app through Bluetooth connectivity. Echoronics Dash is a handy and smart band that can be easily worn throughout the day. Just wear it nice and easy in a casual manner around your wrist. The best part, it syncs all the data captured around your activity from the band in the app for unified data management. At one glance, you are able to keep a tab on all your daily activity.

### Features of Echo Dash

This fitness band from the [Mevolife Inc.](#) comes with several features. It also has exclusive features to register important fitness parameters. It keeps a close watch on the steps taken, distance, calories burned as well as active minutes. There is an inbuilt optical sensor to monitor the heart rate 24x7, which lets users keep track of their health continuously. It comes with sleep tracking that analyzes the duration of sleep and other associated patterns. The alarm in the band functions as a motivator and engages users in workout in order to achieve aggressive goals. It alerts (sedentary alerts) users if they are inactive for a specified time period. Further, this fitness tracker displays call, SMS and social alerts on the band screen so that you don't miss out on anything.

Ms. Khyati Mahajan, founder of MevoFit said, "Our endeavor has been to create a wave of positive fitness transformation in the Indian society. We have fitness bands for both amateur and mature fitness and sports enthusiasts. Echoronics Dash comes with rich and diverse features which makes it a satisfying buy for the passionate fitness enthusiasts. Further, the intuitive Heart Rate feature is what makes this fitness tracker stand apart from others."
