

Announcing State-of-the-Art Product Teardown Analysis by Intellectual Property Consulting Firm GHB Intellect

GHB Intellect highlights Product Teardown Analysis as a pillar of their IP Consulting Services specializing in reverse engineering and cost analysis.

SAN DIEGO, CA, UNITED STATES, January 3, 2019 /EINPresswire.com/ -- As the leading southern California full service intellectual property consulting firm, GHB Intellect is proud to highlight a core component of its business, [Product Teardown](#). The firm utilizes intellectual property experts and state-

of-the-art [reverse engineering](#) facilities to provide a full report to clients requiring engineering and analytical services. Using a time-tested process, GHB Intellect's experienced specialists provide clients with confidential teardown reports to help clients find potential replacement parts, provide competitive analysis or analyze the use of intellectual property.

The Product Teardown services can be used for the development of Evidence of Us (EoU) charts for patent sale, licensing or litigation, all of which are property of the client and not for public sale. After the product is disassembled, a detailed report is generated for the client that outlines one or more of the technologies used. Clients can also request a production cost analysis with the report, consolidated in to a bill of materials (BoM) document for accounting and patent valuation purposes.

Additional Engineering IP Services

Other engineering support services provided by GHB Intellect include reverse engineering, network evaluation, proof of concept, technology development and engineering standardization. The specialists at GHB Intellect can provide reverse engineering for software, hardware, firmware, networks and protocols. If you are interested in learning more about the firm's Product Teardown process or would like to see examples, please contact the GHB Intellect offices Monday through Friday between 8:00am and 5:00pm PST. You can visit their website at <https://ghbintellect.com>, call (858) 367-3642 or email admin@ghbintellect.com for answers to any questions you may have.
