

Global Lyme Diagnostics Welcomes Dr. Bernarda Zenker to Scientific Advisory Board

Groundbreaking Lyme Screen company adds experienced expert to advisory board.

RESEARCH TRIANGLE PARK, NORTH CAROLINA, UNITED STATES, January 8, 2019 /EINPresswire.com/ -- Global Lyme Diagnostics (GLD) is excited to announce that Dr. Bernarda Zenker has joined GLD's Scientific Advisory Board.

"As a clinician, I am passionate about giving hope to individuals who have struggled and suffered. Many of my patients now have a confirmed diagnosis which had previously evaded traditional Western Blot evaluations, through testing with Global Lyme Diagnostics. I am thrilled with Global Lyme Diagnostics' sensitive and cost-efficient testing for Lyme, Borrelia and Lyme-Coinfection testing, which has enabled hopeful and targeted treatment for my patients" says Zenker.

Global Lyme Diagnostics' sole mission is to service the dire, unmet needs of the global Lyme community with a new diagnostic solution specific to Lyme Disease that is grounded in science and designed to significantly decrease the number of patients being misdiagnosed.

Dr. Zenker is a Board-Certified Family Physician through the American Academy of Family Medicine and is also Board-Certified in Integrative Medicine. Dr. Zenker has a particular concern for finding solutions to chronic health problems. She utilizes traditional medicine assisted with nutritional supplements and diet recommendations in the treatment and prevention of chronic diseases such as Lyme.

Dr. Bernarda Zenker

Through her 20 years of family practice experience, Dr. Zenker has become a trusted advisor to physicians across the country and has given hundreds of consultations on various medical matters including diagnosing and treating Lyme disease.

"We are very excited to have Dr. Zenker join our Scientific Advisory Board. Her clinical advice will be extremely valuable in furthering GLD's science to help the global Lyme community," stated Mickey Ramchandani, CEO of GLD. "Misdiagnosis is a core issue, as Lyme Disease can masquerade as many things – juvenile arthritis, fibromyalgia, chronic fatigue syndrome, multiple sclerosis and a host of other diseases. We are passionate about providing a diagnostic solution that decreases the misdiagnosis of Lyme Disease."
