

Registration opens for SMI's 2nd Injectable Drug Delivery 2019

Building on the success of its launch last year SMI Group are proud to presents the 2nd Injectable Drug Delivery Conference and exhibition.

LONDON, UNITED KINGDOM, January 8, 2019 /EINPresswire.com/ -- Conference Overview: The global injectable [drug delivery](#) market is expected to grow from \$400 billion to \$1200 billion by 2046 with a CAGR of 12.8% according to Research Markets Reports. Therefore, the conference will aim to discuss the key developments in this field and the latest technological advancements.

Join us on the 15th - 16th May 2019, in London along with two pre-conference workshops taking place on 14th May 2019.

Key Speakers Include:

- Bjørg Kaae Hunter, Device Engineering Manager, GlaxoSmithKline
- Blake Green, Senior Manager Regulatory Affairs, Amgen
- Quentin Le Masne, Head of Engineering for Electro-Medical Drug Delivery Devices, Merck
- Vasco Filipe, Formulation and Drug Process Development Section Head for Biologics, Sanofi
- Stephen Paboojian, Senior New Technology Project Leader II, Novartis Pharma AG
- Terry Reed, Director of Business development, AstraZeneca
- Tom Lawrie-Fussey, Head of Digital Health, Cambridge Design Partnership
- Joël RICHARD, Head of Technical & Pharmaceutical Operations, MedinCell
- Miranda Newbery, Director/Human Factors Consultant, Inspired Usability Limited

This conference offers a chance to learn about innovative injectable drug delivery systems with industrial insights on the following:

- Life cycle management for developing devices that are both user friendly and revenue effective
- Device design considerations
- Long acting [injectables](#) and bringing these therapeutics to market with case studies
- Connected devices, GDPR and cyber security programs
- Developments in primary packaging
- Growth in transdermal delivery and subcutaneous infusion devices
- Digital health partnerships
- Large volume patch pump innovation examples

For those looking to attend there is currently a £400 early-bird saving, ending January 31st. Further information is available at: www.injectable-drug-delivery.com/einpr1
