

FIBERTOWN Data Centers and Disaster Recovery Offices announce significant Houston expansion

FIBERTOWN Data Centers and Disaster Recovery Offices are expanding colocation and disaster recovery options in the Houston, Texas marketplace

HOUSTON, TEXAS, USA, January 9, 2019 /EINPresswire.com/ -- [FIBERTOWN Data Centers and Disaster Recovery Offices](#) are expanding their Houston footprint with additional data halls at their north Houston location. "Since opening the Houston market in 2011, FIBERTOWN has steadily grown, adding clients across several industries," says FIBERTOWN Vice President of Operations Joe Langston. "We're continuing to invest in Houston, where there are unique needs for [colocation](#) and business continuity facilities. The timing could not be better to add several, new, mission-critical clients."

FIBERTOWN serves clients of all sizes from many industries, including energy, finance, retail, healthcare, education, government, and others. By focusing on mission-critical companies where reliability is essential, FIBERTOWN delivers a product that provides confidence and peace-of-mind to those responsible for data and operations.

According to FIBERTOWN CFO Nancy Finney, "Our north Houston data center has seen steady growth as more companies realize the safety and convenience of colocation. With a direct fiber link to the Bryan data center and business continuity offices, many Houston clients enjoy the convenience of our north Houston data center combined with the security of our Bryan facilities."

In addition to providing colocation services with a 100% SLA uptime guarantee, FIBERTOWN also furnishes secure, dedicated disaster recovery office space on the Bryan data center campus, allowing clients to reposition essential personnel out of harm's way to continue critical and secondary operations.

Dual, 24/7/365 Network Operations Centers (NOCs) supporting FIBERTOWN's SSAE18 SOC 1 Type 2 compliant data centers offer companies carrier neutral, fault-tolerant technology and amenities for colocation, control center and business continuity needs.

About FIBERTOWN

FIBERTOWN is a trusted leader in colocation data centers, disaster recovery, and business continuity office space. Texas owned and operated since 1997, FIBERTOWN maintains data centers with concurrent and redundant power, cooling and connectivity, as well as disaster recovery offices and SCADA control centers, in north Houston and Bryan, Texas.
