

Dr. Hadi Michael Rassael Discusses Cosmetic Surgery

CHEVY CHASE, MARYLAND, USA, January 11, 2019 /EINPresswire.com/ -- Deciding when to get cosmetic surgery can be a life-altering decision. [Dr. Hadi Michael Rassael](#) offers tips on knowing when it's time to get facial procedures and the importance of scheduling a consultation.

Before getting any type of cosmetic surgery, [Dr. Hadi Michael Rassael](#) always recommends making a private consultation to discuss any concerns and the type of surgery you are considering. With almost 20 years of experience, Dr. Hadi Michael Rassael is ready to help you become the best version of yourself.

With a dedicated staff focused on making your visit and surgery with Dr. Hadi Michael Rassael, a relaxing, confident and holistic one, we guarantee that you will leave feeling satisfied and refreshed with the procedures and results performed by Dr. Hadi Michael Rassael.

By offering numerous types of cosmetic surgery and cosmetic enhancement options, Dr. Hadi Michael Rassael can help patients revive the natural beauty of their skin, helping them to feel younger and ultimately helping patients to become a much healthier version of themselves. Dr. Hadi Michael Rassael skillfully understands with each patient's needs, helps each patient improve their skin integrity, while helping each patient feel younger at the same time.

Patients that often get a facelift, will be great candidates for a neck lift procedure. The neck lift procedure smooths the skin and the contours of the neck. By using precise surgical techniques developed over his decades of practice, Dr. Hadi Michael Rassael will carefully remove the excess skin on the neck and tighten the muscles to create a smoother appearance overall, adding youth to your neckline.

Facial implants are another common surgery performed that can include such implants as chin and cheek, that will enhance the bone structure and create symmetry between the facial features. A chin implant can be used to define the chin while cheek implants add contour to a narrow-looking face, bringing balance. Implants are often used in conjunction with other facial cosmetic surgery procedures, dermal fillers and fat transfer for superior aesthetic balance.

Another common facial procedure Dr. Hadi Michael Rassael performs is Scar revision surgery. Scar revision surgery is a surgical procedure used to improve the appearance of your scars, especially on or around the face. Although scar tissue is permanent, scar revision surgery can

make your scars much less noticeable. Depending on the severity of the scarring, Dr. Hadi Michael Rassael can utilize a variety of scar revision techniques in combination with laser treatments, injections, or skin grafts to smooth the scar and reduce visibility.

Before getting any cosmetic procedure, Dr. Hadi Michael Rassael strongly encourages every patient to schedule a private consultation to discuss next steps with him to ensure that you have the best experience possible.
