LONDON, ENG, UNITED KINGDOM, January 15, 2019 /EINPresswire.com/ -- [Hybrid Solutions](#) announces the release of [VertexFX](#) 11 version

Fresh off the success of the VertexFX online trading platform, Hybrid Solutions has completed the development of VertexFX 11.

Based on clients', partners' and traders' own ideas and suggested features, updated this version of VertexFX aims to make the trading process and managing trading accounts simpler than ever.

“

Our partners will like VertexFX 11 because its updated comprehensive platform requires no third party involvement.”

Akram Majed, CEO of Hybrid Solutions

This latest development also includes many fixes and enhancements of the Turn-Key Trading solution VertexFX.

VertexFX fulfils all international financial authorities' requirements and offers a comprehensive online trading platform for brokers, market makers and liquidity providers for all of OTC and STP business models.

VertexFX 11 further improves upon the VertexFX platform

with these new features:

Social Trading: A new service allowing VertexFX traders to follow up signal providers trades.

Backtesting: Traders are able to back-test trading strategies using demo chart data to help ensure its functionality before running them on a live account.

Binary options: Provides a simple trading technique for traders to take advantage of market volatility.

Bullion trading: Enables traders to trade precious metals such as gold and silver in their various units through the VertexFX 11 platform.

VertexFX maintains a market place with hundreds of plugins developed by third-party programmers and offered to users. In comparison, the enhanced features of VertexFX 11 simplify trading without hassle and without the use of third-party plugins.

Akram Majed, CEO of Hybrid Solutions said: "Our partners will like VertexFX 11 because its updated comprehensive platform requires no third party involvement."

"By giving brokers more sophisticated technologies we are able to provide a real alternative to existing trading platforms."
