

# Nancy Clairmont Carr of The Joy-Effect to be Featured on CUTV News Radio

CHANHASSEN, MINNESOTA, UNITED STATES, January 15, 2019

[/EINPresswire.com/](http://EINPresswire.com/) -- What are your intentions, not just for your business, but for your life? How do you want your work to be a part of your life? To change how people manage their business, they must first change the things that aren't serving them in a way that allows them to be their optimal selves. They can then live their purpose through their work and enjoy more joy, freedom, and abundance in all areas.

Nancy Clairmont Carr is a Transformation Coach and the founder of The Joy-Effect, an energy coaching practice dedicated to helping business owners increase sales profitably through creating Higher

Consciousness. She uses a combination of energy healing, leadership, and health and lifestyle coaching.

"No matter who or where you are in life, choosing joy will propel you to your highest good," says Nancy. "You can create a life where abundance and joy surround you."

Prior to launching The Joy-Effect, Nancy served as a marketing executive, entrepreneur and health coach. This combination provides the tools required to address all areas of the business owner.

"Many times, health is the lowest priority for business owners," says Nancy. "By creating total health, they become energized and more aligned, which makes running a business much easier."

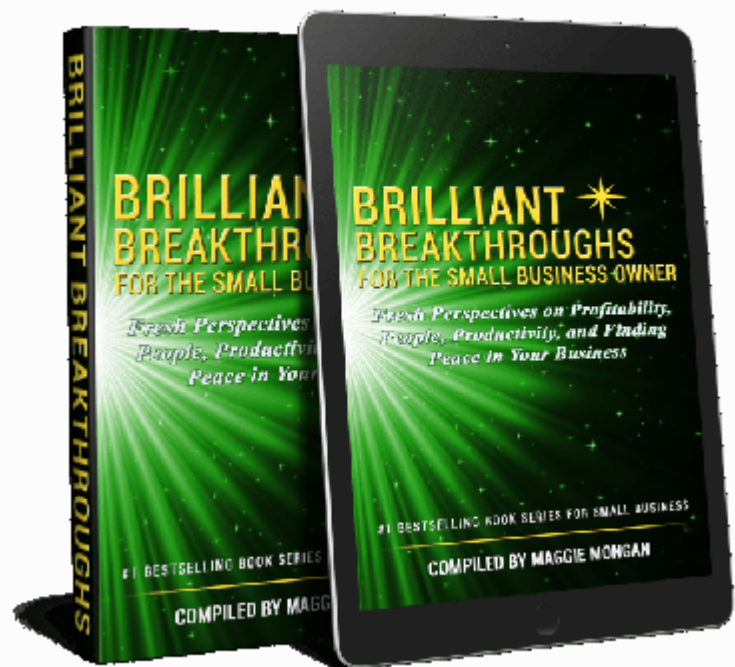

Nancy helps increase her clients' vibrational frequencies. As these frequencies increase, her clients are more able to access their intuition and infinite intelligence on a consistent basis to inspire more creative ideas and optimal solutions. She wrote how "Higher Consciousness Creates Higher Profitability" in her recently co-authored #1 bestselling book "Business Breakthroughs for the Small Business Owner: Fresh Perspectives on Profitability, Productivity, People and Creating Peace in Your Business."

"The work I do raises people's vibration permanently," says Nancy. "They learn to operate from their heart, from pure source energy and consciousness. When they increase their vibration levels, they create win-win situations and serve others in the best and highest possible way. And they are living their purpose."

Nancy says the best thing about creating higher consciousness is it affects every area of your life, not just work. As you think more creatively and experience life more abundantly, you make decisions that impact every area more positively.

"The work is profound, permanent, and it's neuroscience and energy-based," says Nancy. "The higher your consciousness, the more you accept yourself. That's what this is about: achieving self-love and acceptance."

CUTV News Radio will feature Nancy Clairmont Carr in an interview with Jim Masters on January 17th at 1pm EST.
