TEMPE, ARIZONA, USA, January 17, 2019 /EINPresswire.com/ -- The [Tides on Mill Management](#) team has given their apartment complex in Tempe, Arizona a series of upgrades that improve the well-being of all residents. A beautiful community already offering spacious apartment homes, the upgrades include new top-notch amenities and leisure areas.

At the [Tides on Mill apartments](#), the complex offers three open floor plans to meet diverse resident needs. Interested tenants can choose from one or two bedroom apartments with ample amenities and standard features including an all-electric kitchen, a patio or balcony, hardwood floors, and a washer and dryer in addition to large walk-in closets.

While the apartments already come with a list of perks, the management team has improved other property amenities to enhance the overall resident experience.

Besides remodeled units across the complex, upgrades to the apartments made by management include:

**LED Lighting:** LED lights are highly energy efficient. They can consume up to 90% less power than traditional incandescent bulbs. Because of this, there is a dramatic decrease in power costs for residents and a greener initiative from management.
