

Human Grooming Tests Show Positive Results

MONTREAL, QUEBEC, CANADA, January 19, 2019 /EINPresswire.com/ -- Hi, I've been using grooming techniques on my body and face since 2002. Human grooming is the action of unfolding your skin with your nails and fingertips.

Cutaneous folds have been ignored by medicine, but grooming proves that they are responsible for numerous health problems, aches and pains, aesthetic deteriorations and aging.

I've experimented several fold removal methods and I've refined the most effective ones.

The results are presented in these two videos:

Video - [Human grooming rediscovered](https://youtu.be/g8IPpxkxEl4) - <https://youtu.be/g8IPpxkxEl4>

Video - [The pain is in the skin](https://youtu.be/RVHz0Max-EE) - <https://youtu.be/RVHz0Max-EE>

and on my website: <http://www.daniellaberge.net/grooming/grooming.htm>

Human grooming is 100% natural and free. Everybody is equipped to do it.

My findings revolutionize our understanding of pain, ugliness and aging, and the way we can treat them.
