

# RELMAR AWARDED MAJOR MARINE INNOVATION GRANT

*Relmar Limited, the Hull-based Marine and Reliability Engineering support company, has been awarded a grant of over £200,000 by Innovate UK*

KINGSTON-UPON-HULL, EAST YORKSHIRE, UNITED KINGDOM, January 24, 2019 /EINPresswire.com/ -- [Relmar](#) Limited, the Hull-based Marine and Reliability Engineering support company, has been awarded a grant of over £200,000 and invited to join a new consortium by Innovate UK. The funds will be used to develop intelligent maintenance systems as part of the Digital Maintenance of Ships initiative, [DiMOS](#).

Ken Shakesby, CEO and Dr. Mark Horton, CTO

The DiMOS initiative is bringing together Relmar, Brunel University, London and three other specialist companies to create an intelligent system for ships that monitors equipment, looks for trends and patterns in the data, and advises what maintenance needs to be done.

“

We are thrilled to be part of the DiMOS project. As a Mariner, I understand how important it is to ensure the safety of ships by doing the right maintenance at the right time.”

*Ken Shakesby, Chief Executive and Co-Founder*

Ken Shakesby, Chief Executive and co-founder of Relmar, said, "We are thrilled to be part of the DiMOS consortium. As a Mariner myself, I understand how important it is to ensure the safety of ships by doing the right maintenance at the right time."

Dr. Mark Horton, Chief Technical Officer, added, "This is a fantastic opportunity to use Relmar's MRCM technology alongside state-of-the-art artificial intelligence and machine learning that will make a real difference to safety at sea."

About Relmar Ltd

Relmar Ltd was formed in 2016 to apply RCM, the technology used to create optimised

maintenance schedules for civil aviation, to ships and offshore installations, including Renewable Energy. The company provides training, consultancy and products that improve safety, environmental integrity and availability while at the same time minimising maintenance costs.
