"One of our favorite aspects of cryptocurrencies is the way communities can have on their development, application, and ultimate success. This is a trait unique to decentralized currencies by definition, as a huge part of their value lies within their democratic and egalitarian opportunities." -Says Casino Representative, Nina Kacharava.

“

We believe our community comes to us for the wide-range of coins we already house, as well as the knowledge that more are on the way. Now, you can have a say on how to play at this major BTC Casino.”

The Value of Gambling at FortuneJack

FortuneJack is hoping to create a true win-win situation with coin owners, opening up their crypto to a whole new market. Every day, well over 300 crypto bets are made per second, and over half of monthly crypto transactions are betting related. This means a coin being added to

crypto casino can actively reward adopters by both keeping the currency moving and encouraging adoption.

Further, gambling is a fun and exciting way to make a profit if you bet responsibly. Setting time limits, budgets, goals, and developing good strategies are all great ways to practice responsible gaming. In fact, gambling responsibly is the only type of betting FJ supports. While casino can only guarantee complete fairness, the players who set limits and develop familiarity with the games experience hours of fun and big payouts, every day.

Which of These Four will Join Our Bitcoin Casino?

The first four cryptocurrencies FortuneJack members can vote on are...

- EOS

[Cast your vote](#) on which one it will be! Unite with your fellow community members and show your support by flooding your preferred choice with votes. And after the Coin Primaries, the crypto with the most votes will be a deposit and withdrawal method within two month.
