The focus of the ITC is on empowering children everyday so they can become better human beings. Through its social impact programs, a wide range of children are served, including youth at risk, immigrants from Ethiopia, Russia, and the Ukraine along with children with special needs, from autism and ADHD to Down Syndrome as well as those with developmental and physical disabilities. The ITC also recognizes the ability of tennis to bring together children from different religions as seen in its highly successful Coexistence Program.

"We are thrilled to provide our children the opportunity to travel to the US and serve as ambassadors for Israel in these communities abroad," states Glodstein. "It is a phenomenal thing to witness, these children learn so much by having this unique educational experience and getting to meet some of the wonderful people who support them."
