

The SafeCare Group Launches AI Software For Hospital Readmissions, Medical Errors, Infections, & Cost

Software allow hospitals to improve outcomes while reducing cost

LEXINGTON, KENTUCKY, USA, February 6, 2019 /EINPresswire.com/ -- [The SafeCare Group](#)® has launched the [SafeCare Applied Intelligence](#)™ Suite, comprehensive Artificial Intelligence (AI) software to aid proactive real-time decision support and target opportunities of care in hospitals. The EMR-based AI software identify high risk patients on admission to target:

- Avoidable readmissions
- Preventable inpatient mortality
- Avoidable hospital costs
- Redundant lab testing

Hospital readmissions are frequent, harmful and costly totaling over 2.3 million patients annually and incurring an annual cost of \$17 billion.

The Department of Health and Human Services just ordered all US hospitals to post their price lists as total health care spending in America grew to about \$3.5 trillion.

With over 5 billion lab tests each year, it is estimated that there is somewhere near a 30% over utilization rate for tests ordered.

“

SafeCare AI software suite allows hospitals to improve outcomes, while reducing cost”

*Yisrael Safeek, MD, MBA, CEO
The SafeCare Group*

“SafeCare AI software suite allows hospitals to improve outcomes while reducing cost. Hospitals can admit patients, identify patients at risk in real time, and initiate treatment interventions with proactive real-time decision support throughout the stay,” said Yisrael Safeek, MD, MBA, CEO and Chairman, The SafeCare Group.

Leveraging machine learning and deep-learning capabilities, SafeCare AI Suite fosters a new generation of AI applications, which are able to sense, reason, act and

adapt, to address a range of healthcare challenges in areas such readmissions, medical errors, infections, cost, and outpatient utilization.

SafeCare AI Suite can be purchased as a standalone software platform or together with other SafeCare software that can help hospital rankings.

About The SafeCare Group®
The SafeCare Group® was founded in 2010 and its motto is “Innovating, Disrupting, Transforming” healthcare. Since 2016, The SafeCare Group invested heavily into Artificial Intelligence (AI) to realize game-changing clinical, operational, and financial opportunities for hospitals. [SafeCareSoft™](#) SaaS solutions enable hospitals to take advantage of disruptive healthcare software known as Softwaring Healthcare Excellence® that optimize hospital ratings and regulatory accreditation. Since 2012, SafeCare Analytics® have been helping hospitals excel with physician privileging software for Joint Commission OPPE, and hospital software for better readmissions, complications, infections, and value. Since 2013, 100 SafeCare Hospitals® listings have been Recognizing Healthcare Excellence® of 100 US hospitals that excelled with low infections, readmissions, complications, high patient satisfaction, and high value. Since 2015, SafeCare® magazine has been delivering information on the people, ideas and novel technologies affecting access, cost, and quality of healthcare across the globe.
