ENAVATE's Pricing and Costing App provides distributors with options beyond the standard trade agreement that align with their complex pricing needs, including contracts and dynamic pricing. The app provides improved flexibility, greater margin control and can be customized for any business, for example by including hidden costs like freight and handling in price calculations. Businesses can also price items based on purchase cost, inventory cost, loaded costs or variable costs in a way that makes sense for their business.

ENAVATE's Pricing and Costing App features tools that enable distributors to gain pricing advantages including:

• Selling cost management
• Pricing and costs by customer group
• Pricing hierarchy
• Pricing and availability lookup
• Contract management
• Volume pricing
• User access management

"We are excited to offer this new dynamic pricing and costing tool for wholesaler-distributors," said Thomas Ajspur, CEO of ENAVATE. "We understand wholesale distribution and we are equipped with experience, development credentials, deep knowledge of the wholesale distribution industry and a reputation for disruptive innovation. Our goal is to help distributors

break through limitations in an increasingly crowded market."

"Through Microsoft AppSource, customers around the world can easily find tailored line-of-business partner solutions that work with the products they already use," said Kirsten Edmondson Wolfe, Senior Director, AppSource Product Marketing for Microsoft Corp. "We're happy to welcome the Enavate Wholesale Distribution Pricing and Costing App to the growing AppSource ecosystem."
