PUNE, MAHARASHTRA, INDIA, February 7, 2019 /EINPresswire.com/ --

[Virtual events](#) are online exhibitions that include breakout sessions, video conferencing, web conferencing, collaboration tools, communication, and social networking. Virtual events can be enabled on smartphones, desktops, laptops, and tablets. They can be used to announce the launch of new products, provide additional information to people, and obtain new vendors. The exhibit below represents the differences between physical events and virtual events.

According to the report, the automotive industry is one of the fastest growing industries, contributing a major portion to the global virtual inspection market. Virtual inspection helps minimize production losses, lowers the requirement for trained staff, and reduces the chances of reworking. The use of the technology provides 24/7 support for fatigue-free functioning and so, manufacturing and assembly line plants implement this technology to ensure consistent quality.

In 2018, the global Virtual Events market size was xx million US\$ and it is expected to reach xx million US\$ by the end of 2025, with a CAGR of xx% during 2019-2025.

This report focuses on the global Virtual Events status, future forecast, growth opportunity, key market and key players. The study objectives are to present the Virtual Events development in United States, Europe and China.
