## Executive Summary

Global Digital Fault Recorder Market to reach USD 539.04 million by 2025.

Global Digital Fault Recorder Market valued approximately USD 344.8 million in 2016 is forecasted to grow with a healthy growth rate of more than 5.09% over the forecast period 2018-2025. The major factors speculated to augment the markets are escalating requirements for digital substations, and rising demands for reliable power supply system. Incompetent data management and cyber security concerns for processor-based devices are some of the major challenges for the global market. High initial capital expenditure is a key restraint to overcome for the major manufacturers.

Global Digital Fault Recorder Market is segmented based on Type, Installation, Voltage, and Station. The Automated subsegment of Station segment is forecasted to grow with highest CAGR while the Transmission subsegment of Installation segment is expected to dominate in terms of market share. 66–220 kV subsegment was dominant in market share size and is expected to remain dominant throughout the forecasted period. Whereas the Multifunctional subsegment held the biggest market share in the market.

The regional analysis of Global Digital Fault Recorder Market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is the leading region across the world. Whereas, owing to rising no. of research activities in countries such as China, India, and Japan, Asia Pacific region is also expected to exhibit higher growth rate / CAGR over the forecast period 2018-2025.
