

# Automated Flight Information Reporting System - Global Industry Size, Share, Trends, Analysis and Forecast 2019 – 2025

*2018-2025 Automated Flight Information Reporting System Market Global Key Player, Demand, Growth, Opportunities and Analysis Forecast*

PUNE , MAHARASHTRA, INDIA, February 11, 2019 /EINPresswire.com/ -- [Global Automated Flight Information Reporting System Industry](#)

New Study On “2018-2025 Automated Flight Information Reporting System Market Global Key Player, Demand, Growth, Opportunities and Analysis Forecast” Added to Wise Guy Reports Database

The report covers the analysis and forecast of the automated flight information reporting system market on global as well as regional level. The study provides historic data of 2016 along with the forecast for the period between 2017 and 2025 based on revenue (US\$ Mn).

The study provides a detailed view of the automated flight information reporting system market, by segmenting it based on by function, by application and regional demand. The growth in number of flights, has resulted in an increase in demand of this technology. Automated flight information reporting system provides airlines with data and reliable voice services using global satellite network. Enhanced communications and lower operating costs are some of the major advantages of automated flight information reporting system. These advantages are expected to make the market demanding during the forecast period of 2017-2025.

Regional segmentation includes the current and forecast demand for North America, Europe, Asia Pacific, Middle East and Africa and Latin America. The segmentation also includes by function, and application. These include different business strategies adopted by the leading players and their recent developments.

A comprehensive analysis of the market dynamics that is inclusive of market drivers, restraints, and opportunities is part of the report. Additionally, the report includes potential opportunities in the automated flight information reporting system market at the global and regional levels. Market dynamics are the factors which impact the market growth, so their analysis helps understand the ongoing trends of the global market. Therefore, the report provides the forecast of the global market for the period from 2017 to 2025, along with offering an inclusive study of the automated flight information reporting system market.

The report provides the size of the automated flight information reporting system market in 2017 and the forecast for the next eight years up to 2025. The size of the global automated flight information reporting system market is provided in terms of revenue. Market revenue is defined in US\$ Mn. The market dynamics prevalent in North America, Europe, Asia Pacific, Middle East and Africa and Latin America has been taken into account in estimating the growth of the global market.

Market estimates for this study have been based on revenue being derived through regional pricing trends. The automated flight information reporting system market has been analyzed based on expected demand. Bottom-up approach is done to estimate the global revenue of the automated flight information reporting system market, split into regions. Based on application and function, the individual revenues from all the regions is summed up to achieve the global revenue for automated flight information reporting system market. Companies were considered for the market share analysis, based on their innovation and application and revenue generation. In the absence of specific data related to the sales of automated flight information reporting system by several privately held companies, calculated assumptions have been made in view of the company's penetration and regional presence.

The report covers a detailed competitive outlook that includes the market share and company profiles of key players operating in the global market. Key players profiled in the report include FLYHT Aerospace Solutions Ltd., Bombardier Inc., Airbus Industries, AeroMechanical Services USA, Inc. and others.

The global automated flight information reporting system market has been segmented into:  
Global Automated Flight Information Reporting System Market: By Function

- Data Collection and Transmission
- Engine and Airframe Data
- On-Demand Streaming of Flight Data Recorder
- Safety Services
- Others

Global Automated Flight Information Reporting System Market: By Application

- Passenger Flights
- Military Aircrafts
- Cargo Flights

Global Automated Flight Information Reporting System Market: By Geography

- North America
  - o U.S.
  - o Canada
  - o Mexico
- Europe
  - o U.K.
  - o France
  - o Germany
  - o Italy
  - o Rest of Europe
- Asia Pacific
  - o India
  - o China
  - o Japan
  - o Rest of Asia Pacific
- Middle East and Africa
  - o South Africa
  - o Rest of Middle East and Africa
- Latin America
  - o Brazil
  - o Rest of Latin America
