Wiseguyreports.Com Adds “Beauty Market (Skincare, Haircare, Color Cosmetics & Fragrances) -Market Demand, Growth, Opportunities and Analysis Of Top Key Player Forecast To 2023” To Its Research Database

Beauty is referred to as a characteristic/distinct feature of an entity that gives pleasure to the aesthetic senses of an individual. In other words, it is an arrangement of certain qualities such as color, design or shape that provides a person with a perceptual experience of desire or fulfillment.

Beauty market is classified into four key categories including skincare, haircare, color cosmetics and fragrances. Skincare is a series of treatment which includes the usage of cosmetics to support skin integrity, enhance its appearance and relieve skin conditions. While haircare is the overall practice performed by an individual to keep his hair attractive, clean and healthy looking. Color cosmetics or base makeup such as eye-makeup, foundations, powders and lip products (LG, LS, Lip Liner) used by the female population to enhance and highlight facial features including eye, nails, face and cheeks. Whereas, fragrances are the oldest form of beauty product which includes the items which enhance the smell of a body in a desirable manner. Some of the popular distribution channels used by the consumers to access beauty products are departmental stores, e-commerce, mass stores, specialty and other direct selling stores.
