Thump Agency launches the Premier
Agency for the Music Industry
There is an untold story behind every
favorite song.

New York, NY (2/14/19) — Announcing
the relaunch of Thump Agency. Thump
Agency is the latest in artist
representation in the music industry,
covering all genres. The focus is to aid
an artist or musician, not just in marketing and branding, but to help in their development as
an artist.

Thump Agency created an agency that offers more than just management. Our founders, Raquel R. Sánchez and Christine Coupet, have over 30 years of experience in A&R, artist management and booking, as well as marketing campaigns specific to the music industry.

Combining their experiences, both founders are minority women in the music business that knew that they would be met with some challenges.

Services offered at Thump Agency include everything a DJ, producer or vocalist needs from music publishing to graphic design to publicity and much more. The ladies have also recently garnered the aid of Charles Morales, a former Defjam executive. Along with a new staff, new social media publicist and a brand new website (www.thump.agency), Thump Agency is well on its way to being the premier agency in the music industry.
