Black Sands Epic Shot

## The Back Story:

The Black Sands comic series tells a story about the greatest African legends in a shonen jump style that teens will love. Many say it is the spiritual successor of "Avatar, the Last Air Bender". Set in the City of Kerma the capital city of the Kushite Civilization in the third millennia BCE.

Kerma dominated the region's gold trade and the pathways down the Nile river. This elevated the Kushite culture to a competitive level with their northern brothers in Kemet. The novels take the audience on a magical and mystical journey of legendary Gods and Kings.
