Today's food and beverage processor must implement the appropriate processes and systems that not only manage recalls, reporting and document control, but also offer the flexibility to respond to changing regulatory requirements.

Experts from Ultra Consultants and Kestrel Management offer an educational webinar session taking place March 7, 2019 to learn what it takes to integrate compliance programs into core business processes and systems.

Set for Thursday March 7, 2019 2pm ET, the Showcase Webinar is entitled "Food Safety Compliance and ERP : How to Stay on the Safe Side." The session details how to meet a pressing need – selecting and implementing the right technology to meet strict food safety mandates.

Key Takeaways:

- Understand the key food safety trends and regulations impacting the sector.
- Get an overview of strategies to help meet and sustain food safety compliance, certifications

and regulatory mandates.

- See the must-have ERP features to help reduce operational risks, achieve food safety requirements, and realize sustained value through effective use of enterprise technology.

Who Should Attend?

- C-level leaders at food and beverage processing companies
- Quality, Compliance, Finance leadership
- ERP, IT Directors
- Operations Directors, Production leadership
- Anyone responsible for overall business process improvement
