

Scaling Up Die Tools Is Dies, Jigs And Tools Manufacturers' Strategic M&A Focus, New Report Shows

LONDON, GREATER LONDON, UK, February 20, 2019 /EINPresswire.com/ -- [Dies, Jigs and Other Tools Global Market Opportunities And Strategies](#) from [The Business Research Company](#) suggest that dies, jigs and tools manufacturers have been investing in mergers and acquisitions over the past four years, specifically to strengthen their die sets business and increase their die making capabilities. Auxo Investment Partners, a private equity firm, made two such strategic acquisitions. In August 2018, Auxo Investment acquired Midway Rotary Die Solutions for an undisclosed value.

The deal will likely allow Midway Rotary to grow its die business and serve a wider array of customers. Midway Rotary Die Solutions' growth strategy aims at expanding its business through offering a broad cutting dies product portfolio to its customers. Again, in September 2018, Auxo Investment acquired Atlas Die LLC and Bernal LLC for an undisclosed amount. The deal will likely scale up Atlas Die LLC and Bernal LLC's die making capabilities.

A die is a specialized tool used in manufacturing industries for cutting and shaping material. The tool's unique feature of customization according to the item to be created, together with the increased demand for paper packaging in recent years has led to an increase in demand for custom die cutting services, as producers look for innovative ways to make their product stand out on the shelf next to their competitors and to save money in the process. The packaging industry has seen increased consumption worldwide of packaged food and beverages and growing demand in emerging economies for other packaged consumer products such as cosmetics, toiletries and pharmaceuticals. Paper packaging, in particular, has seen a resurgence in recent years, becoming popular with customers and producers alike as its many benefits are realised.

Dies, which is a segment of the global dies, jigs and other tools manufacturing market, is expected to grow at the second highest forecast annual growth rate of around 9% to 2023, following the stamping and other tools segment at more than 9.5% annual growth rate. Jigs and fixtures is expected to be the slowest growing segment, at a little over 8% annual growth rate.

[Dies, Jigs and Other Tools Global Market Opportunities And Strategies](#) is one of a series of new reports from The Business Research Company that identify opportunities and explain strategies, provide a market overview, analyse and forecast market size and growth, market trends, drivers, restraints, and leading competitors' revenues, profiles and market shares in over 300 industry reports, covering over 2400 market segments and 56 geographies. The market reports draw on 150,000 datasets, extensive secondary research, exclusive insights and quotations from interviews with industry leaders. Market analysis and forecasts are provided by a highly experienced and expert team of analysts and modellers.

Where To Learn More

Read [Dies, Jigs and Other Tools Global Market Opportunities And Strategies](#) from The Business Research Company for information on the following:

Markets Covered: Global dies, jigs and other tools market, stamping and other tools market, jigs and fixtures market, dies market

Data Segmentations: Dies, jigs and other tools market size, global and by country; historic and forecast size, and growth rates for the world, 7 regions and 12 countries; by product segments – (dies, jigs and fixtures, stamping and other tools) market size, historic and forecast size, and growth rates for the world, 7 regions and 12 countries.

Dies, Jigs and Other Tools Market Organizations Covered: Allmatic-Jakob Spannsysteme GmbH, Kennametal, Inc, Midway Rotary Die Solutions, Misumi Group Inc and Roto-Die Company, Inc.

Regions: North America, Europe, Middle East, South America, Africa, Asia Pacific

Time Series: Five years historic (2014-18) and forecast (2018-23).

Other Information And Analyses: Per capita average dies, jigs and other tools manufacturing market expenditure, global and by country; global dies, jigs and other tools manufacturing market size as a percentage of GDP, global and by country; dies, jigs and other tools manufacturing market patents; dies, jigs and other tools manufacturing market trends and opportunities, drivers and restraints, key mergers and acquisitions, market entry/expansion strategies.

Sourcing and Referencing: Data and analysis throughout the report are sourced using end notes.

Strategies For Participants In Die Set, Jig, And Fixture Manufacturing Industry: The report explains over 12 strategies for tool and die design, jigs and other tools manufacturing companies, based on industry trends and company analysis. These include companies investing in automation technologies to reduce production time, and Midway Rotary Die Solutions' growth strategy which aims at expanding its business through offering a broad cutting dies product portfolio to its customers.

Opportunities for Dies, Jigs and Other Tools sector companies: The report reveals where the

global dies, jigs and other tools industry will put on most \$ sales up to 2023.
