

NCODA and Willowglade Technologies to partner to provide the Patient Involvement Platform™ to NCODA member practices

MISSION VIEJO, CA, UNITED STATES, February 26, 2019 /EINPresswire.com/ -- The National Community Oncology Dispensing Association ([NCODA](#)), which specializes in the support of oncology practices with in-office dispensing and Medically Integrated Dispensing capabilities, has partnered with [Willowglade Technologies](#) to provide its best in class Patient Involvement Platform™ to member practices. This partnership will provide tools to patients and practices to improve patient compliance, adherence and persistence of oral oncolytics, among other medications.

“NCODA is committed to the continued improvement of outcomes of patients with cancer. By collaborating with Willowglade on the Medication Module of the Patient Improvement Platform™ our aim is to offer our member practices, and their patients, technologies such as automated reminders, collection of patient reported outcomes and a variety of other tools to facilitate proactive involvement of patients in their own care driving improved outcomes” said Michael Reff, member of the NCODA Executive council.

“We are pleased to partner with NCODA and their member practices so that together we can improve patient education, communication, collaboration and program adherence” said John Papandrea, CEO of Willowglade Technologies. “Our vision of how to drive improved patient outcomes is very much aligned with NCODA and we are pleased to be able to partner with them on this important initiative” he adds.□

The Medication Module is only one of multiple modules available with Willowglade Patient Involvement Platform™.
