

# TBCASoft Teams With Tech Mahindra To Jointly Promote Cross-Carrier Blockchain For Telecom Operators

BARCELONA, SPAIN, February 27, 2019 /EINPresswire.com/ -- [TBCASoft](#), Inc. ("TBCASoft"), a U.S.-based innovator of cross-carrier blockchain platform technology, today announced that it will collaborate with India-based Tech Mahindra Ltd. ("TechM") to promote TBCASoft's Cross-Carrier Blockchain Platform for telecom carriers.

TBCASoft leads the Carrier Blockchain Study Group (CBSG), a global consortium of telecom carriers, which has been gaining momentum because of its unique vision and Cross-Carrier Blockchain Platform technology. CBSG Consortium members and partners are building blockchain-based services on this platform.

Manish Vyas, President, Communications, Media & Entertainment Business, and the CEO, Network Services, Tech Mahindra, said "Driven by a strong need to transform operations and enabling new monetization possibilities, telcos are leveraging blockchain as one of the game changing technologies. Blockchain also complements the 5G network rollout plan of telcos as it opens up new opportunities to monetize transactions happening across the network and complements existing technologies to achieve greater security. Tech Mahindra's partnership with TBCASoft, will enable us to jointly develop and explore blockchain possibilities for CBSG Consortium members."

Rajesh Dhuddu, Global Practice Leader, Blockchain, Tech Mahindra, said, "Telcos continue to push the frontiers of digital transformation to provide a completely new customer experience. We at Tech Mahindra have designed various blockchain solution sets leveraging enterprise blockchain protocols, to help telcos globally accomplish higher net promoter scores, lower operational costs and enhance profitability. This consortium will play a critical role in taking these solutions to the telcos and helping them unlock multiple benefits."

Ling Wu, Founder and CEO of TBCASoft and Co-Chairman of the CBSG Consortium, said, "Global carriers have already provided reliable and ubiquitous networks. By partnering with TBCASoft under the CBSG Consortium, carriers are able to create and extend their services beyond traditional markets and borders. The demand from global telecom carriers to join the CBSG blockchain collaboration with TBCASoft has been increasing rapidly. In the meantime, carriers may need additional expertise in planning new services in emerging areas. We look forward to providing more value to our consortium members by teaming-up with global partners like Tech Mahindra."
