PUNE, MAHARASHTRA, INDIA, February 27, 2019 /EINPresswire.com/ -- [Information Security Consulting Industry](#)

Description

Wiseguyreports.Com Adds "Information Security Consulting -Market Demand, Growth, Opportunities and Analysis of Top Key Player Forecast To 2022" To Its Research Database

According to Statistics MRC, the Global Information Security Consulting market is estimated at \$15.89 billion in 2016 and is expected to reach \$30.11 billion by 2022 growing at a CAGR of 11.2% from 2016 to 2022. Increasing network attacks and growing complexity in network infrastructure are the key factors driving the market growth. Whereas, high cost for consulting is hindering the market growth. However, increasing demand from emerging economies is opportunity factor for the market players.

Based on security type, network security holds the highest market share owing to increase in cyber attacks on networks in an organisation. Banking, Financial Services, and Insurance is anticipated to grow at highest CAGR during forecast period owing to rise in usage of web and mobile based services demanding for tight information security measures. Small and Medium Enterprises are attracting more towards information security consultants of their organisations making them to move at faster phase during forecast period. North America accounted for the highest market share as compared to other regions. The Asia Pacific region is expected to grow at a higher CAGR and is anticipated to account for the highest market share during forecast period because of increasing usage of smartphones and web based applications.
