

Boost Oxygen is Now Available at CVS Pharmacy Locations Nationwide

Non-prescription 95% pure oxygen is on-the-shelf at 2,200 stores

MILFORD, CT, UNITED STATES, March 1, 2019 /EINPresswire.com/ -- [Boost Oxygen](#) is very proud to announce that lightweight and portable bottles of 95% pure oxygen are now available at 2,200 store locations of [CVS Pharmacy](#) throughout the United States – with an additional 1,400 locations planned for mid-April. Initially available at a select number of stores as part of a testing program, the sales success made it an easy decision to make Boost available to more customers at more locations of this leading pharmacy retailer.

As a 100% natural product that has supporting benefits for customers of all ages, the uses of supplemental oxygen include acclimation to altitude, easier breathing in poor air quality conditions (heat, humidity, ozone, smoke, pollen) and supporting a faster recovery to aerobic breathing during sports activity for athletes of all ages; including professionals.

Boost Oxygen is non-prescription 95% pure oxygen

Boost Oxygen co-founder and Chief Executive Officer Rob Neuner says, “From the day we introduced Boost Oxygen into the retail market in 2007, our goal has been to provide immediate access to supplemental oxygen for anyone who is seeking it. CVS Pharmacy is a key partner to fulfilling this nationwide vision for the United States. Oxygen is the safest and most natural product that has an amazing range of health benefits.”

“

From the day we introduced Boost Oxygen into the retail market in 2007, our goal has been to provide immediate access to supplemental oxygen for anyone who is seeking it.”

Rob Neuner, CEO and Co-Founder

Mr. Neuner also says, “it motivates us every day when we receive the feedback we do from around the country; it includes stories of sports performance for youth and high school athletes all the way up to seniors who appreciate the lightweight and portable nature of having purified oxygen for helping them to feel healthy and be active.”

The design of the patented mask on each size of Boost Oxygen makes it the easiest to use and most popular product in the retail market. The 100% recyclable

aluminum containers are designed for easy one-hand use and come in three (3) sizes – the extremely popular 5-liter Medium (delivering up to 100 1-second inhalations) will be available at CVS. To assist customers, Boost Oxygen has implemented a [Store Locator](#) feature at the Boost Oxygen website to help customers more easily find their most convenient retail location.
