About Skyworks

“

The VTOL market is growing at an exponential pace, and, Skyworks is well positioned to provide tangible, safe and effective solutions to these mobility challenges.”

Steve G. Stevanovich

Skyworks Global Inc. is the world leader in gyronautics, the study and design of sustained autorotative flight represented by the company's gyroplane technology. Skyworks has more than 40 patents with several more underway, all obtained in an effort to radically change not only the way gyroplanes are perceived, but also the way they are utilized. From mass personnel transportation, agriculture, and border protection to literally changing the economies of developing nations, Skyworks' goal is to change the paradigm of aerial technology.
