Cali is the ideal location for the establishment of Information Technology and Shared Services Centers. The Zonamerica is the first Service Free Trade Zone in Colombia. It is a 38-hectare project that seeks to generate more than 17,000 jobs. The Business Matchmaker provides an opportunity to meet face to face with local businesses.

The <u>Colombia Trade Mission</u> will strengthen links and enhance business cooperation, economic and trade relations between the Americas, the Caribbean, and Africa.

The trade mission brings together the Federal, State, Municipal, and Territorial interests of the public, private and civil societies interacting to implement coordinated series of activities for the common goal. A concept to intersect the key elements of economic development with a focused mission of "economic empowerment, through entrepreneurial pursuits". This event is a prototype for the Diaspora's emerging markets and supports the management of productive projects, redefines the vocation of ecotourism, fishing and the environment of territory.

<u>The NBCC</u> has been producing Trade Missions since November 1999 when 84 members traveled to Rio De Janeiro and documented over \$30 million in new business. Now, in 2019, we will take it to a new and more intense level. By expanding new markets for our members, there will be more opportunities for growth and innovation.
