PUNE, MAHARASHTRA, INDIA, March 5, 2019 /EINPresswire.com/ -- Summary:

A new market study, titled "Discover [Global Sun Care Products Market](#) Upcoming Trends, Growth Drivers and Challenges" has been featured on WiseGuyReports.

Introduction

Global Sun Care Products Market

Sun care products are products that are in the form of cream gel lotion and sprays among others which are used to protect against harmful rays of the sun (UV rays) thus avoiding sunburn. The Sun care products market is generally segmented into three broad product types: Sun Protection Products, After Sun Products and Self-Tanning Care Products. Sun care products are usually in Cream, Lotion, Gel, Powder, Wipes, Spray or some other forms.

Sun care products are classically distributed in two distinct channels: the department store and the mass market channel. The retail chain is the major distribution partner for every beauty and personal care manufacturer, as the majority of sales are from retail outlets. The current shift in the retail industry from a more traditional unorganized retail format to organized retail has accelerated the growth of the retail industry.

Due to the higher price and gross margin of high-end products compared with the low-end products, in the next few years, companies will invest much more on R&D and transfer to high-end product field. In the future, the production and consumption is estimated to continue developing with a stable growth rate. To meet the large and increasing demand, more and more players will go into this industry.

According to this study, over the next five years the Sun Care Products market will register a 4.2% CAGR in terms of revenue, the global market size will reach US\$ 13500 million by 2024, from US\$ 10500 million in 2019. In particular, this report presents the global market share (sales and revenue) of key companies in Sun Care Products business, shared in Chapter 3.
