

Journal of Clinical Imaging Science (JCIS) has a New Publisher

JCIS has moved to a very reputable USA based publisher. JCIS now has a very dynamic website with a very intuitive new manuscript management system

NEW YORK, NY, UNITED STATES, March 9, 2019 /EINPresswire.com/ -- Journal of Clinical Imaging Science is a peer-reviewed international journal founded by highly reputed radiologists, ultrasound specialists and researchers from across the globe. It is Indexed in PubMed and Emerging Science Citation.

The Journal of Clinical Imaging Science is an open access peer-reviewed International journal committed to publishing high-quality articles in the field of imaging science. The journal aims to present imaging science and relevant clinical information in an understandable and useful format. It started its publication in 2011.

It is Indexed in PubMed and Emerging Science Citation Index and Scopus

Our audience includes Radiologists, Radiologists in training, Researchers, Clinicians, Medical professionals and students.

JCIS has a highly rigorous Double-blind peer-review process that makes sure articles are scientifically accurate, relevant, novel and important. JCIS has reviewers from across the globe.

The [editorial board](#) comprises a panel of international experts covering breast imaging, chest imaging, emergency [radiology](#), musculoskeletal radiology, nuclear medicine, Ultrasound imaging, gastrointestinal radiology, pediatric radiology, genitourinary radiology, neuroradiology, and interventional radiology. Our editorial board members provide their expertise and guidance in shaping the content and direction of the journal.

“

Imaging Science provides objectivity to the practice of Clinical Medicine and is an essential element in the care of the patient.”

Vikram Dogra

Multidisciplinary
It is a multidisciplinary journal that covers all clinical and diagnostic aspects of imaging including:

- Breast imaging
- Cardiopulmonary imaging

- Efficacy, education, and administration related to imaging
- General and emergency radiology
- Gastrointestinal imaging
- Genitourinary and gynecologic imaging
- Musculoskeletal imaging
- Neuroradiology

- Head and Neck Imaging
- Nuclear medicine
- Pediatric imaging
- PETal imaging
- Vascular and interventional radiology
- Ultrasound

This journal is read in 211 countries around the globe serving 11,037 major cities. The journal has approximately 2300 reviewers. The journal has about 1 million downloads per year from its site. This journal has a successful track record since its inception in 2011. It commands great respect among Radiology Peers and has tremendous support. This is a double-blind peer-reviewed journal that follows publication ethics to the core. Its acceptance rate is about 27%. It has an international editorial board headed by a very eminent radiologist- Dr.Vikram Dogra of USA.
