

# Organ on Chip Market Global Size, Forecast To 2021, Geographies, Drivers, Trends

LONDON, GREATER LONDON, UK, March 12, 2019 /EINPresswire.com/ -- Cutting clinical failure rates will help drive the [organ on chip market \(OOC market\)](#) to 72% a year growth up to 2021. Another driver is reducing the reliance on animal testing. Increases in the number of collaborative sales agreements between companies in the [OOC industry](#) and university spin-offs and the entry of new advanced models of OOCs into the market will also drive growth.

The Business  
Research Company

The Business Research Company

Most of the growth of the OOC market will be in North America and Europe. The Asian OOC market size will also be considerable by 2021, having started almost from nothing in 2017.

[Organ-On-Chip Global Market Opportunities And Strategies To 2021](#) from The Business Research Company is one of a new series of industry report that provide a market overview, analysis and forecasts of the OOC market size and industry statistics, OOC market growth rates, OOC market trends, OOC market drivers, OOC market restraints, OOC market revenues, OOC market shares and OOC industry company profiles of the leading competitors. The series has over 300 industry reports, covering over 2400 market segments and 56 geographies. The industry reports draw on 150,000 datasets. Extensive secondary research is augmented with exclusive insights and quotations from industry leaders obtained through interviews. Market analysis and forecasts are provided by a highly experienced and expert team of analysts and modelers. The report describes actionable strategies for participants in the OOC industry and also identifies the most significant opportunities in the market.
