

3D Scanners Market 2019 Global Analysis, Share, Trend, Key Players, Opportunities & Forecast To 2023

PUNE, MAHARASHTRA, INDIA, March 15, 2019 /EINPresswire.com/ -- Summary:

A new market study, titled "Discover [Global 3D Scanners Market](#) Upcoming Trends, Growth Drivers and Challenges" has been featured on WiseGuyReports.

Introduction

Global 3D Scanners Market

A 3D scanner is a device that analyses a real-world object or environment to collect data on its shape and possibly its appearance. The collected data can then be used to construct digital three-dimensional models.

An increasing focus on industrialization and manufacturing is expected to be the main driver of the 3D scanner market going forward. 3D scanners have widespread adoption in the automobile, aerospace and construction industry. Automobile manufacturers have been reducing their product development cycles in recent times, enabling them to introduce new vehicles quicker. In addition, a high prevalence of reverse engineering in countries like China will also spur the demand for 3D printers. They are also used by the medical industry for surgery, various diagnoses like CT scans and also by dentists. In developed regions like North America, 3D scanners have begun to be used in crime scene investigation, providing a ready market for manufacturers. Another use case for 3D scanners is for maintaining digital records of all cultural or historical artefacts. This is mainly in countries like China, India and the Middle East which are considered the cradles of civilization and have countless historical treasures worth preserving. 3D scanners are vital in preserving records of historical data or any artefacts which may be kept in museums around the world.

North America is the largest 3D scanner market, followed by the European Union. The U.S.A has always been at the forefront of adopting new technologies for various reasons. The region is known for its manufacturing prowess in the automobile, healthcare and aerospace industries. The North American 3D scanners market players have also found customers in new fields like forensics, crime scene investigation, and the fashion and jewellery market. Europe closely follows the U.S. in adoption of 3D scanners for the same reasons mentioned above. Asia Pacific countries like China and India are expected to account for the highest growth rates. This is due to rapid industrialization requiring 3D scans in the construction industry and a high prevalence of reverse engineering (particularly in China). In addition to this, there is also a strong focus on automobile manufacturing and healthcare, increasing the scope of the Asian 3D scanners market.

The global 3D Scanners market is valued at xx million US\$ in 2018 is expected to reach xx million US\$ by the end of 2025, growing at a CAGR of xx% during 2019-2025.

This report focuses on 3D Scanners volume and value at global level, regional level and company level. From a global perspective, this report represents overall 3D Scanners market size by analyzing historical data and future prospect. Regionally, this report focuses on several key regions: North America, Europe, China and Japan.

At company level, this report focuses on the production capacity, ex-factory price, revenue and market share for each manufacturer covered in this report.

The following manufacturers are covered:

Faro
Trimble
Topcon
Hexagon
Nikon Metrology
Creaform (AMETEK)
Teledyne Optech
Z+F GmbH
Maptek
Kreon Technologies
Shapegrabber
Surphaser
Riegl
3D Digital
Carl Zeiss

Segment by Regions

North America
Europe
China
Japan

Segment by Type

Laser Scanners
Portable CMM Based Scanners

Segment by Application

Automobile Industry
Aerospace Industry
Construction Industry

Table of Contents

1 3D Scanners Market Overview
1.1 Product Overview and Scope of 3D Scanners
1.2 3D Scanners Segment by Type
1.2.1 Global 3D Scanners Production Growth Rate Comparison by Type (2014-2025)
1.2.2 Laser Scanners
1.2.3 Portable CMM Based Scanners
1.3 3D Scanners Segment by Application
1.3.1 3D Scanners Consumption Comparison by Application (2014-2025)
1.3.2 Automobile Industry
1.3.3 Aerospace Industry
1.3.4 Construction Industry
1.4 Global 3D Scanners Market by Region
1.4.1 Global 3D Scanners Market Size Region
1.4.2 North America Status and Prospect (2014-2025)
1.4.3 Europe Status and Prospect (2014-2025)
1.4.4 China Status and Prospect (2014-2025)
1.4.5 Japan Status and Prospect (2014-2025)
1.5 Global 3D Scanners Market Size
1.5.1 Global 3D Scanners Revenue (2014-2025)

1.5.2 Global 3D Scanners Production (2014-2025)

2 Global 3D Scanners Market Competition by Manufacturers

2.1 Global 3D Scanners Production Market Share by Manufacturers (2014-2019)

2.2 Global 3D Scanners Revenue Share by Manufacturers (2014-2019)

2.3 Global 3D Scanners Average Price by Manufacturers (2014-2019)

2.4 Manufacturers 3D Scanners Production Sites, Area Served, Product Types

2.5 3D Scanners Market Competitive Situation and Trends

2.5.1 3D Scanners Market Concentration Rate

2.5.2 3D Scanners Market Share of Top 3 and Top 5 Manufacturers

2.5.3 Mergers & Acquisitions, Expansion

.....

11 Global 3D Scanners Market Forecast

11.1 Global 3D Scanners Production, Revenue Forecast

11.1.1 Global 3D Scanners Production Growth Rate Forecast (2019-2025)

11.1.2 Global 3D Scanners Revenue and Growth Rate Forecast (2019-2025)

11.1.3 Global 3D Scanners Price and Trend Forecast (2019-2025)

11.2 Global 3D Scanners Production Forecast by Regions (2019-2025)

11.2.1 North America 3D Scanners Production, Revenue Forecast (2019-2025)

11.2.2 Europe 3D Scanners Production, Revenue Forecast (2019-2025)

11.2.3 China 3D Scanners Production, Revenue Forecast (2019-2025)

11.2.4 Japan 3D Scanners Production, Revenue Forecast (2019-2025)

11.3 Global 3D Scanners Consumption Forecast by Regions (2019-2025)

11.3.1 North America 3D Scanners Consumption Forecast (2019-2025)

11.3.2 Europe 3D Scanners Consumption Forecast (2019-2025)

11.3.3 China 3D Scanners Consumption Forecast (2019-2025)

11.3.4 Japan 3D Scanners Consumption Forecast (2019-2025)

11.4 Global 3D Scanners Production, Revenue and Price Forecast by Type (2019-2025)

11.5 Global 3D Scanners Consumption Forecast by Application (2019-2025)

.....

13 Methodology and Data Source

13.1 Methodology/Research Approach

13.1.1 Research Programs/Design

13.1.2 Market Size Estimation

13.1.3 Market Breakdown and Data Triangulation

13.2 Data Source

13.2.1 Secondary Sources

13.2.2 Primary Sources

13.3 Author List

13.4 Disclaimer

List of Tables and Figures

Figure Picture of 3D Scanners

Table Global 3D Scanners Production (K Units) Growth Rate Comparison by Types (2014-2025)

Figure Global 3D Scanners Production Market Share by Types in 2018

Figure Laser Scanners Product Picture

Table Laser Scanners Major Manufacturers

Figure Portable CMM Based Scanners Product Picture
