Introduction

Global Bedroom Furniture Market

Bedroom furniture, sometimes called a bedroom set or bedroom suite consists of a group of furniture in a bedroom or sleeping quarters. Pieces of furniture referred to as bedroom furniture usually include: beds, wardrobes, dressers, chests, nightstands, armoires, vanities, trunks, and mirrors. There are also many variations of these pieces as furniture styles have changed through time and as individual manufacturers have put their own spin on them.

Bedroom furniture is predominantly made of wood, but many bed frames are made of various metals as well. Bed frames include but are not limited to bed rails, foot-boards and head-boards. Foot-boards and head-boards are usually made up of a few materials including wood, leather, paint & other various fabrics. Steel or iron is usually used for bed rails.

In the coming years there is an increasing demand for bedroom furniture in the regions of Asia Pacific, North America and Europe that is expected to drive the market for more high-quality bedroom furniture. Growth in residence income in the principal countries, increasing of consuming expenditures, more-intense competition, launches in introducing new products, retrofitting and renovation of old technology, increasing adoption of bedroom furniture will drive growth in North America and Europe markets.
