The Veracity Player is now integrated with JW Player, Brightcove and VideoJS. Vimeo and Kaltura are to be integrated in April. This means the Veracity module works in most of the standard Online Video Players in the world. The Veracity Player provides publisher in-video loyalty schemes utilizing VRA as a reward. For publishers and advertisers this means 4x the fill rates and Click through Rates which equates to 4x higher revenues and engagement.

About Veracity

[Veracity.io](#) is a leading video player providing unique Rewarded Video Player Technology to major video publishers across the globe. Veracity is the future of online video.
