The Leader in Foam Swab Technology

Super Brush Foam Swabs

Visit Super Brush at Foam Expo 2019 Booth 814

From prototype to full-scale production, Super Brush has the in-house resources have the ability to engineer durable, lint-free foam swabs. Super Brush designs machinery for feeding, forming, and sealing foam to achieve a highly automated production process. To ensure the highest quality products are produced, Super Brush employs vision systems to identify foam abnormalities Super Brush's quality system is certified to ISO 13485:2016 and the manufacturing facility is FDA registered.

“

The Foam Expo gives our team the opportunity interact with many of our suppliers in the foam industry and explore new technologies.”

*Sales Manager, Diane Henry*

“The Foam Expo gives our team the opportunity interact with many of our suppliers in the foam industry and explore new technologies. This year, we look forward to seeing current and prospective customers who are attending to learn about the new innovations in the industry,” explains Diane Henry, Super Brush's Director of Sales.

Super Brush will be showing wide range of foam applicators and swabs, including Swab-its Firearm Cleaning Products, at booth 814. For more information about foam expo visit <http://www.foam-expo.com/>.
