

Eric Ritter of Aeryon Labs recognized with Leadership Award for Technology Assisted Training Delivery

Eric Ritter of Aeryon Labs recognized with a Professional Education and Training Leadership Award for Technology Assisted Training Delivery

SALT LAKE CITY, UT, UNITED STATES, March 19, 2019 /EINPresswire.com/ -- [Education Services LLC](https://www.educationservicesllc.com/) is proud to recognize [Eric Ritter](#) of [Aeryon Labs](#) with a 2018 Professional Education and Training Leadership Award for Technology Assisted Training Delivery.

Eric is being recognized for his leadership and initiative in creation of the MCS v4.1 Update Training Program. Version 4.1 of the Aeryon Mission Control Software (MCS) delivered many improvements but also significant changes to the user interface.

Eric recognized the importance of training the world-wide customer base on this important new release prior to installation by end-users on their aircraft and command tablets. He oversaw creation of the MCS v4.1 Update Training Program which teaches operators about the changes and enhancements in this important release.

All customers world-wide were given advanced access to the training program which included multi-media explanations and demonstrations of the new and changed functionality, and included access to modules from the full Level 1 training program that includes interactive learning and practice activities, guided practice pseudo-simulations, and access to the fully functional cloud-hosted MCS simulator. During installation of the upgrade, operators are again given another opportunity to immediately access the online cloud-hosted MCS simulator from their web browser, in their choice of 11 languages, with just a single mouse click. This approach helped to ensure that all customers had the opportunity to learn about and practice with the new user interface before upgrading their aircraft and command tablets.

“

We are very impressed with the way Eric Ritter leveraged online training to prepare Aeryon customers for the major software update.”

Steve Klingler, CEO of Education Services LLC

Congratulations to Eric Ritter and Aeryon Labs on this exceptional achievement!

About Eric Ritter (<https://www.linkedin.com/in/ericritter/>)
