

Supercapacitors Market, Global, Regions, Countries, Segments, Size, Growth, Key Players, Patents, Licenses

LONDON, GREATER LONDON, UK,
March 20, 2019 /EINPresswire.com/ --

The supercapacitors/[ultracapacitors market](#) is worth nearly \$1.2 billion and is expected to grow at 30.0% a year to nearly \$4.6 billion by 2023. Rapid growth in the electronics industry, increasing popularity of hybrid vehicles, and increased investment in

mass rapid transport systems in many developed and developing countries globally will drive the [supercapacitors market](#). The supercapacitors market is challenged by the availability of low-cost alternatives such as batteries and by rising trade protectionism.

The supercapacitors/ultracapacitors market consists of sales of the high-capacity devices used to store electric charges. Supercapacitors/ultracapacitors consist of one or more pairs of conductors separated by an insulator. They are used in automobiles and electronic products such as premium smartphones, digital cameras and solid-state drives.

The transport industry was the largest user of the supercapacitors/ultracapacitors market in 2018 at \$0.59 billion. The automotive industry will be the fastest-growing end user industry, rising at 34.3% a year. Rising demand for hybrid vehicles owing to incentives and subsidies offered for these cars globally will drive the supercapacitor market growth.

[Supercapacitors/Ultracapacitors Global Market Opportunities And Strategies To 2023](#) from The Business Research Company is one of a new series of industry report that provides a market overview, analysis and forecasts of supercapacitors market size and industry statistics, supercapacitors market and ultracapacitors market growth rates, supercapacitors market and ultracapacitors market drivers, supercapacitors market and ultracapacitors market restraints, supercapacitors market and ultracapacitors market revenues, supercapacitors market and ultracapacitors market shares and supercapacitors market and ultracapacitors market company

The logo for The Business Research Company, featuring the text "The Business Research Company" in a serif font, with a stylized bar chart graphic to the right. The bar chart has four bars of varying heights, with the second bar from the left being the tallest and colored green. The text "The Business Research Company" is positioned below the main title.

profiles of the leading competitors. There are over 300 industry reports, covering over 2400 market segments and 56 geographies. The industry reports draw on 150,000 datasets. Extensive secondary research is augmented with exclusive insights and quotations from industry leaders obtained through interviews. Market analysis and forecasts are provided by a highly experienced and expert team of analysts and modelers. The report describes actionable strategies for participants in the supercapacitors market and ultracapacitors market and also identifies the most significant opportunities in the market.

Where To Learn More: Read Supercapacitors/Ultracapacitors Global Market Opportunities And Strategies To 2023 from The Business Research Company for information on the following:

Markets Covered: Global supercapacitors/ultracapacitors market, by product types- automotive, transport, renewables, industrial, electronic and others.

Data Segmentations: Supercapacitors/ultracapacitors market size, global and by country; historic and forecast size, and growth rates for the world, 7 regions and 12 countries; by product segments – automotive, transport, renewables, industrial, electronic and others- market size, historic and forecast size, and growth rates for the world, 7 regions and 12 countries, supercapacitors/ultracapacitors market regional and country analysis.

Supercapacitors/Ultracapacitors Market Organizations Covered: Murata Manufacturing Co., Ltd., Maxwell Technologies, Inc., Panasonic Corporation, AVX Corporation, ELNA Co., Ltd.

Regions: North America, Europe, Middle East, South America, Africa, Asia Pacific

Time Series: Five years historic (2014-18) and forecast (2018-23).

Other Information And Analyses: Global per capita average supercapacitors and ultracapacitors market expenditure, global and by country; global supercapacitors and ultracapacitors market size as a percentage of GDP, global and by country; supercapacitors/ultracapacitors market trends and opportunities, competitive landscape, drivers and restraints, key mergers and acquisitions, market entry/expansion strategies.

Sourcing and Referencing: Data and analysis throughout the report are sourced using end notes.

Strategies For Participants In The Supercapacitors/Ultracapacitors Industry: The report explains over 9 strategies for supercapacitors/ultracapacitors sector companies, based on industry trends and company analysis. These include supercapacitors/ultracapacitors companies considering to use metal nitrides as electrodes while manufacturing supercapacitors to enhance their operational efficiency, and Panasonic Corporation's growth strategy which is aimed at expanding its supercapacitors product portfolio.

Opportunities for The Supercapacitors/Ultracapacitors sector companies: The report reveals where the global supercapacitors/ultracapacitors market will put on most \$ sales up to 2023.
