Introduction

Global Forage Seed Market

The Global Forage Seed Market was valued at USD xx million in 2017 and is estimated to reach USD xx million by 2025.

The expected CAGR of the forage seed market is xx% during the forecast period.

Driving factors of global forage seed market

The market is driven by increasing demand for livestock products, including eggs, meat (beef, pork, and mutton), and milk combined with the rise in meat consumption.

Other factors causing the growth include: Growing industrialization in livestock sector, growth in feed additive industry fuelled by an increase in meat consumption, rising concerns over quality and safety of the animal and human health.

However, the market growth is restrained by lack of awareness among consumers and favourable government policies for cereals crops.

Government policies are leading towards decrease in area cultivated for forage crops.
