PUNE, INDIA, March 26, 2019 /EINPresswire.com/ --

[Hot Forging Press Market 2019](#)

Forging is the operation where the metal is heated and then a force is applied to manipulate the metals in such a way that the required final shape is obtained. Forging is generally a hot working process though cold forging is used sometimes.

Scope of the Report:

There are only a few major producers of hot forging presses in the world. And the major producer is located in Europe and Japan, such as SMS, Sumitomo, TMP, Schuler and Fagor Arrasate. These five companies occupied 46.71% revenue market share in 2016. Europe was the largest consumption region, occupied 24.01% market share in 2016, because of economy development rapidly. In the next few years, this industry will keep 4.45% annual growth rate, and the production will reach 394 units in 2022.

Despite the presence of competition problems, the global recovery trend is clear, hot forging presses retain their advantage in fastener and shaped pieces production, investors are still optimistic about this area; the future will still have more new investment enter the field. Although sales of hot forging presses brought a lot of opportunity, the study group recommends the new entrants just having money but without technical advantage and downstream support do not to enter into the forging presses field.

The worldwide market for Hot Forging Press is expected to grow at a CAGR of roughly xx% over the next five years, will reach 1230 million US\$ in 2024, from 1230 million US\$ in 2019.

This report focuses on the Hot Forging Press in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.
