PUNE, MAHARASHTRA, INDIA, March 29, 2019 /EINPresswire.com/ -- [OTC Braces And Supports Industry](#)

Description

Global OTC Braces and Supports market is accounted for \$1.16 billion in 2017 and is expected to reach \$2.03 billion by 2026 growing at a CAGR of 6.4%. Growing number of aging population, rising incidence of orthopedic diseases & disorders, growing knowledge on orthopedic support systems, rapid growth in affordability and accessibility of OTC orthopedic braces and rise in number of accident related injuries and sports related injuries are some factors helping the market to compete across the globe. On the contrary, lack of awareness and high cost of products are some restraints hindering the market growth. Moreover, rising acceptance of E-commerce platforms will provide significant opportunities for the market over the forecast period.

On the basis of end user, orthopedic clinics segment is expected to account for the largest market share owing to patients giving less preference to visit hospitals for acute musculoskeletal problems. They prefer availing products of OTC. As OTC products decrease the time and assist quick treatment for damaged parts of muscles and joints.

By geography, North America dominated the global market due to increasing knowledge levels related to orthopedic support systems that supports mobility and prevent further injury. Moreover, there is a high risk of osteoporosis among US population owing to their huge population of obese and geriatric people.
