The Washington Corporate Whistleblower Center is part of a national initiative by the Corporate Whistleblower Center and they are targeting EPA-DOE Superfund sites nationwide for waste, fraud and abuse of taxpayers dollars. <http://CorporateWhistleblower.Com>

The whistleblower rewards can be substantial for government contractors fleecing the federal government as the Washington Corporate Whistleblower Center would like to explain anytime at 866-714-6466. Recently some whistleblowers at the Hanford Nuclear Reservation received over \$600,000 for this type of information. As the group is fond of saying, "Why sit on a potentially winning lotto ticket without ever knowing what it might have been worth?"

Simple rules for a whistleblower from the Corporate Whistleblower Center: Do not go to the government first if you are a potential whistleblower with substantial proof of wrongdoing. The Corporate Whistleblower Center says, "Major whistleblowers frequently go to the government thinking they will help. It's a huge mistake. Do not go to the news media with your whistleblower information. Public revelation of a whistleblower's information could destroy any prospect for a reward. Do not try to force a company/employer or individual to come clean about significant Medicare fraud, overbilling the federal government for services never rendered, multi-million-dollar state or federal tax evasion, or a company falsely claiming to be a minority owned business to get preferential treatment on federal or state projects. Come to us first, tell us what type of information you have, and if we think it's sufficient, we will help you with a focus on you getting rewarded."

Unlike any group in the US the Corporate Whistleblower Center can assist a potential whistleblower with packaging or building out their information to potentially increase the reward potential. They will also provide the whistleblower with access to some of the most skilled whistleblower attorneys in the nation-provided the whistleblower's information is adequate.
