Leapest by EdCast Welcomes itSM Solutions LLC as Content Partner in the Corporate Learning Marketplace

World-renowned IT best practice curriculum publisher brings its NIST Cybersecurity Professional certification training curriculum to Leapest, EdCast customers

ROTTERDAM, SOUTH HOLLAND, NETHERLANDS, April 3, 2019 /EINPresswire.com/ -- Leapest Corporate Learning Marketplace, an EdCast company, continues to expand its catalog, with its customers now gaining access to the robust training content from itSM Solutions, an accredited content publishing company specializing in the creation of

NIST Cybersecurity Professional (NCSP) Certification

digital transformation training curriculum for Cybersecurity, Information Technology (IT) and Digital Transformation (DX) professionals.

itSM Solutions is a global consortium of academic, government and industry thought leaders working together to create Digital Transformation (DX) training curriculum based on the frameworks, methodologies, and technologies created by the National Institute of Standards and Technologies (NIST) and other internationally recognized institutes and organizations.

The NIST Cybersecurity Professional (NCSP) training curriculum was created in partnership with digital transformation thought leaders including UMass Lowell (UML) a NSA/DHS National Center of Academic Excellence in Cyber Defense Research (CAE-R).

The curriculum accredited by APMG International teaches the knowledge, skills, and abilities to:

- Develop a strategy to educate executives and board members about the NIST Cybersecurity Framework
- Create a Cybersecurity program that will become policy for the organization
- Engineer a solution that will span the enterprise and its supply chain
- Build and Operate a Security Operations Center (SOC) to continuously monitor and respond to changes in the documented cybersecurity profile
- Conduct continuous business risk assessments that compare the current profile against the target profile

The NCSP certification training curriculum was featured in the National CyberWatch Center 2018 Innovations in Cybersecurity Education magazine. The NCSP curriculum also won the ISE North America Project Award for the Academic and Public-Sector Category, 2013.

NCSP Benefits include:

- NCSP curriculum is based on the NIST, NICE and other industry cybersecurity frameworks and is focused on creating the engineering, operations, business risk and specialist workforce required to help organizations protect, detect, identify, respond and recover from cyber-attacks.
- NCSP white label curriculum was specifically designed to meet the IT, cybersecurity and digital transformation curriculum needs of any training organization or academic institution
- NCSP online Train-the-Trainer program enables training partners to quickly stand-up its own delivery and mentoring force.
- NCSP flexible delivery options enable the program to be adapted to any existing educational infrastructure and training program
- NCSP multi-year licenses enable individuals and enterprises to span the training over degree program years or enterprise budget cycles

The target audience for the NCSP curriculum are:
- IT, Cybersecurity and Digital Transformation Design & Implementation Engineers
- IT, Cybersecurity and Digital Transformation Technical Operations & Business Analysts
- IT, Cybersecurity and Digital Transformation Specialists including Pen Testers, Ethical Hackers, Software & - Application Developers, Auditors, and Investigators

The NCSP training curriculum can be delivered in an instructor-led classroom, virtual classroom or blended classroom. The program can also be delivered as a standalone self-paced video training program. Print, Digital Book and Video versions of the training content are available in the Leapest Corporate Learning Marketplace.

"The rapid pace of digital transformation has created a strong demand for skilled workers to secure, maintain and improve digital infrastructures and cyberspace. This partnership with Leapest with its customer base of training providers as well as enterprises from 100+ countries helps to quickly create and continually improve the global IT, Cybersecurity and Digital Transformation workforce," says Rick Lemieux, Co-Owner, Chief Revenue Officer, itSM Solutions.

"Leapest, an EdCast company, has a strong mission to help organizations around the world to upskill and reskill the workforce in Industry 4.0. Partnering with industry leaders like itSM Solutions enhances our offerings for organizations looking to identify their skill gaps and improve their capabilities as they go through their digital transformation journeys," says Sukhbir Jasuja, CEO [Leapest by EdCast](.).
