

# The Major Orthopedic Joint Replacement Implants Market Is Forecast To Grow At An Annual Rate Of Nearly 4%

*The major orthopedics joint replacement implants market is expected to grow from almost \$16 billion in 2017 to more than \$20 billion in 2022.*

LONDON, GREATER LONDON, UK, April 3, 2019 /EINPresswire.com/ -- The major orthopedics joint replacement implants market is expected to grow from almost \$16 billion in 2017 to more than \$20 billion in 2022 at an

annual growth rate of nearly 4%. Growth of the market will be driven by the increasing numbers of elderly people, the rising prevalence of chronic diseases such as obesity and arthritis, and increasing awareness about the importance of joint replacement surgeries. The major orthopedics implants market will be negatively affected by a shortage of skilled workers and the growing usage of novel and alternative therapies for end-stage arthritis.

The [major joint replacement orthopedics implants market](#) comprises of the market for implants used in knee and hip replacement surgical procedures. Replacements of hip and knee joints are carried out in patients suffering from chronic pain and poor functioning of hip and knee joints.
