

Depuy Synthes Emerges As The Largest Player In The Minor Orthopedic Replacement Implants Market

The global minor orthopedic replacement implants market grew from around \$1.3 billion in 2013 to nearly \$1.6 billion in 2017 at an annual growth rate of 6%.

LONDON, GREATER LONDON, UK, April 3, 2019 /EINPresswire.com/ -- Depuy Synthes was the largest competitor in the minor orthopedic replacement implants industry in 2017 with nearly 20% share of the market. Depuy

Synthes is a part of the Johnson & Johnson group of companies. The company offers orthopedic and neuro products and services for joint reconstruction, trauma, spine, sports medicine, neuro, cranio-maxillofacial, power tools and biomaterials.

The global minor orthopedic replacement implants market grew from around \$1.3 billion in 2013 to nearly \$1.6 billion in 2017 at an annual growth rate of almost 6%. The fast growth of the global minor orthopedic replacement implants market can be attributed to the increased elderly population with arthritis, increase in advanced surgical procedures, increase in proximal humerus fractures, advanced materials for implant manufacturing, technological advances, and increasing awareness toward replacement surgery.

The [minor orthopedic replacement implants industry](#) is restrained by the short life spans of the minor joint implants. Minor joint implants have relatively short life spans compared to hip and knee implants. The life span for shoulder and elbow replacement implants is around 10-15 years. Ankle implants are intact for 5 to 8 years; due to their short lifespan these procedures are not recommended for young people.

Minor Orthopedic Replacement Implants Global Opportunities And Strategies To 2021 (<https://www.thebusinessresearchcompany.com/report/minor-orthopedic-implants-replacement-market>) from The Business Research Company is one of a new series of industry report that provides a market overview, analysis and forecasts of minor orthopedic replacement implants market size and industry statistics, minor orthopedic replacement implants market growth rates, minor orthopedic replacement implants market drivers, minor orthopedic replacement implants market restraints, minor orthopedic replacement implants market revenues, minor orthopedic replacement implants market shares and minor orthopedic replacement implants industry's company profiles of the leading competitors. The minor orthopedic replacement implants market report describes actionable strategies for participants in the minor orthopedic replacement implants market and also identifies the most significant opportunities in the market.

Where To Learn More:

Read the [Global Minor Orthopedic Replacement Implants Opportunities And Strategies To 2021](#) from [The Business Research Company](#), for information on the following:

Markets Covered: Minor orthopedic replacement implant market, by product segments - shoulder replacement implant market, foot & ankle replacement implant market, elbow replacement implant market, wrist replacement implants market.

Orthopedic Replacement Implant Market Companies Covered: Depuy Synthes, Wright medical Group, Zimmer Biomet, Stryker, Exactech, Integra.

Regions: North America, Asia Pacific, Western Europe, South America, Eastern Europe, Middle East, Africa.

Countries: USA, China, Japan, Germany, Brazil, France, Italy, UK, Australia, India, Spain, Russia.

Time Series: Five years historic (2013-17) and forecast (2017-21).

Data: Minor orthopedic replacement implant market size, global and by country; historic and forecast size, and growth rates for the world, 7 regions and 12 countries; by product segments – (shoulder replacement implant market, foot & ankle replacement implant market, elbow replacement implant market, wrist replacement implant) market size, historic and forecast size, and growth rates for the world, 7 regions and 12 countries, regional and country analysis.
