

Global Wearable Medical Devices Market Expected To Reach Above \$13 Billion By 2022

The market for global wearable medical devices was valued at \$4.4 billion in 2016 and is expected to reach \$13 billion by 2022.

LONDON, GREATER LONDON, UK, April 4, 2019 /EINPresswire.com/ -- The market for global wearable medical devices was valued at \$4.4 billion in 2016 and is expected to reach \$13 billion by 2022, growing at the rate of

20.9% during the forecast period of 2017 to 2022. The global wearable medical devices market is expected to grow at an attractive growth rate and holds a significant opportunity to grow in untapped markets across the world with increasing awareness among the consumers and aging populations. Growth can also be attributed to the increasing demand for smart watches, growing demand for wearable monitors, rising disposable incomes, and increasing use of wearable devices for cardiovascular diseases management.

[Wearable medical devices](#), are small electronic products, often consisting of one or more sensors, and having computational capability. They are embedded into items that are attached to the body parts, such as the head, feet, arms, wrists and waist. They can resemble watches, eyeglasses, clothing, contact lenses, shoes or even jewellery.

Wearable Medical Devices Global Market Opportunities And Strategies To 2022 from [The Business Research Company](#) is one of a new series of industry report that provides wearable medical market overview, wearable medical devices industry analysis and forecasts of wearable medical market size and wearable medical devices industry statistics, wearable medical devices market growth rates, wearable medical devices market shares and wearable medical devices industry's company profiles of the leading competitors. The wearable medical devices market report describes actionable strategies for participants in the wearable medical devices industry and also identifies the most significant opportunities in the market.

Where To Learn More

Read [Global Wearable Medical Devices Market Opportunities And Strategies To 2022](#) from The Business Research Company for information on the following:

Markets Covered: Wearable medical devices, segmentation by type of device – (diagnostic devices, therapeutic devices); by site of application – (strap, headband, shoe sensors, handheld); by type of products – (consumer wearable market, non-consumer wearable market)

Wearable Medical Devices Organizations Covered: Koninklijke Philips N.V., Omron Corporation, Zephyr Technology Corporation, Fitbit Inc. and Boston Scientific Corporation.

Countries: USA, Japan, Germany, France, Australia, Brazil, Italy, China, Russia, Spain, UK, India.
